

JobLink – Your Next Career Journey

A cutting-edge, role-based job portal designed to connect talent with opportunity.

Platform Overview: Connecting the Dots

Role-Based System

Tailored experiences for Job Seekers, Employers, and Administrators, ensuring relevant functionalities for each user type.

Dedicated Dashboards

Each role gets a personalized dashboard for efficient navigation and quick access to critical information.

Comprehensive Features

From job search and applications to candidate management and analytics, JobLink covers the full recruitment lifecycle.

Seamless Experience

Integrated notifications, robust user profiles, and a fully responsive design across all devices.

Our Vision: Goals for JobLink

1

Empower Job Seekers

Streamline the job search and application process, making it intuitive and effective.

2

Equip Employers

Provide powerful tools for job posting, applicant tracking, and efficient candidate management.

3

Strengthen Admin Control

Enable administrators to monitor platform quality, ensure compliance, and maintain a high-standard user environment.

4

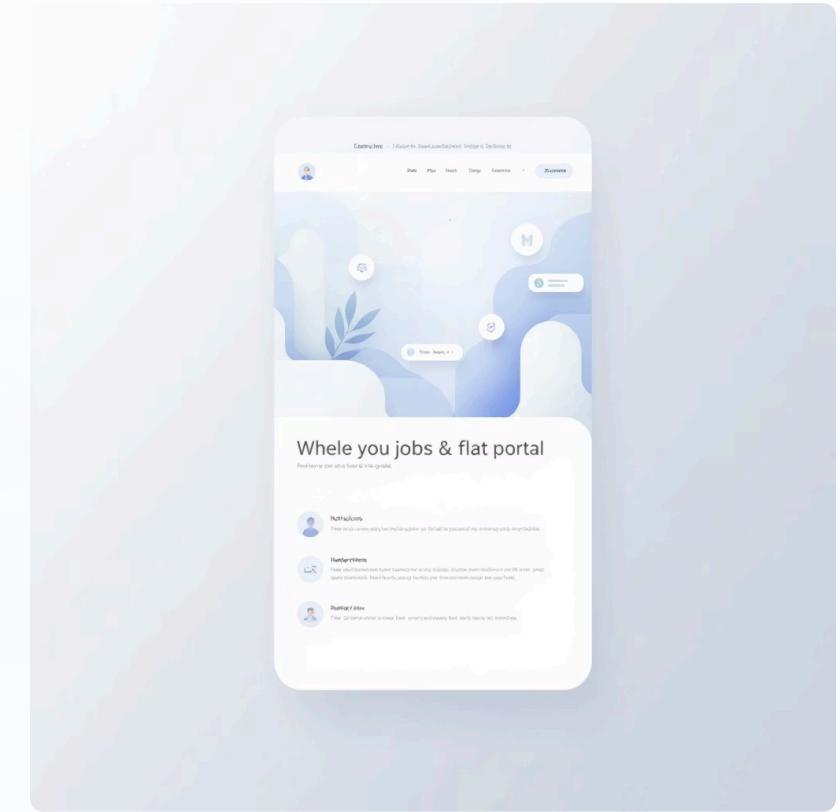

Deliver Modern UX

Guarantee a smooth, responsive, and visually appealing user experience on any device.

Intuitive Navigation: Global Accessibility

Key Navigation Elements

- **Top Navbar:** Features prominent logo and direct link to the Dashboard.
- **Role-Based:** Ensures users see only relevant options, optimizing their workflow.
- **Notifications Bell:** Keeps users informed with real-time updates.
- **Profile Dropdown:** Easy access to Profile, Settings, and Logout options.
- **Mobile-Responsive:** A collapsible menu ensures seamless usability on smaller screens.

Job Seeker Experience: Your Path to Success

Personal Dashboard

Quick access to saved jobs, application status, and a simplified search function.

Advanced Job Search

Search by keyword, location, and type with robust filtering options.

Detailed Job Pages

Comprehensive job descriptions, company information, and an "Apply Now" button.

Application Tracking

Monitor the status of all applications in one centralized location.

Profile Management

Edit your profile, upload resumes, add a profile photo, and manage notification preferences.

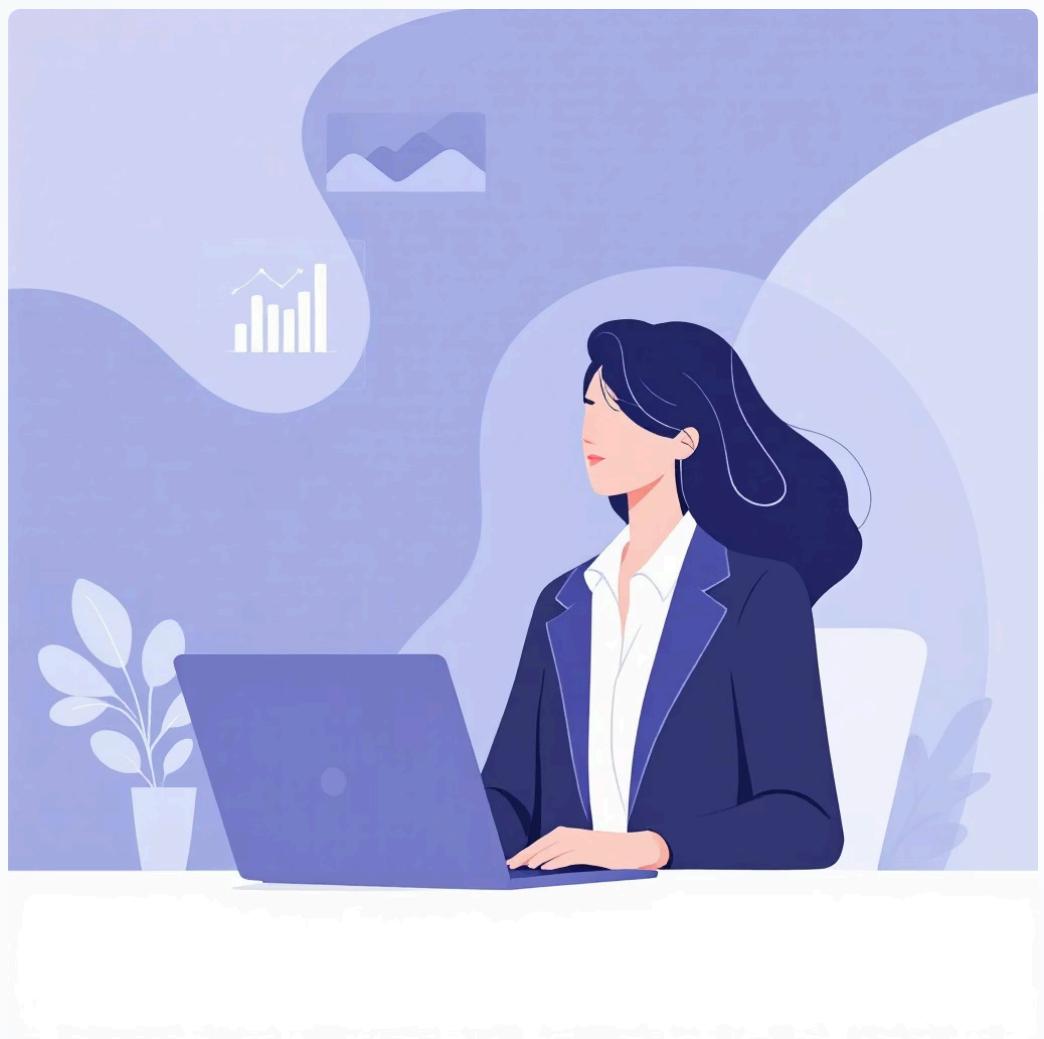

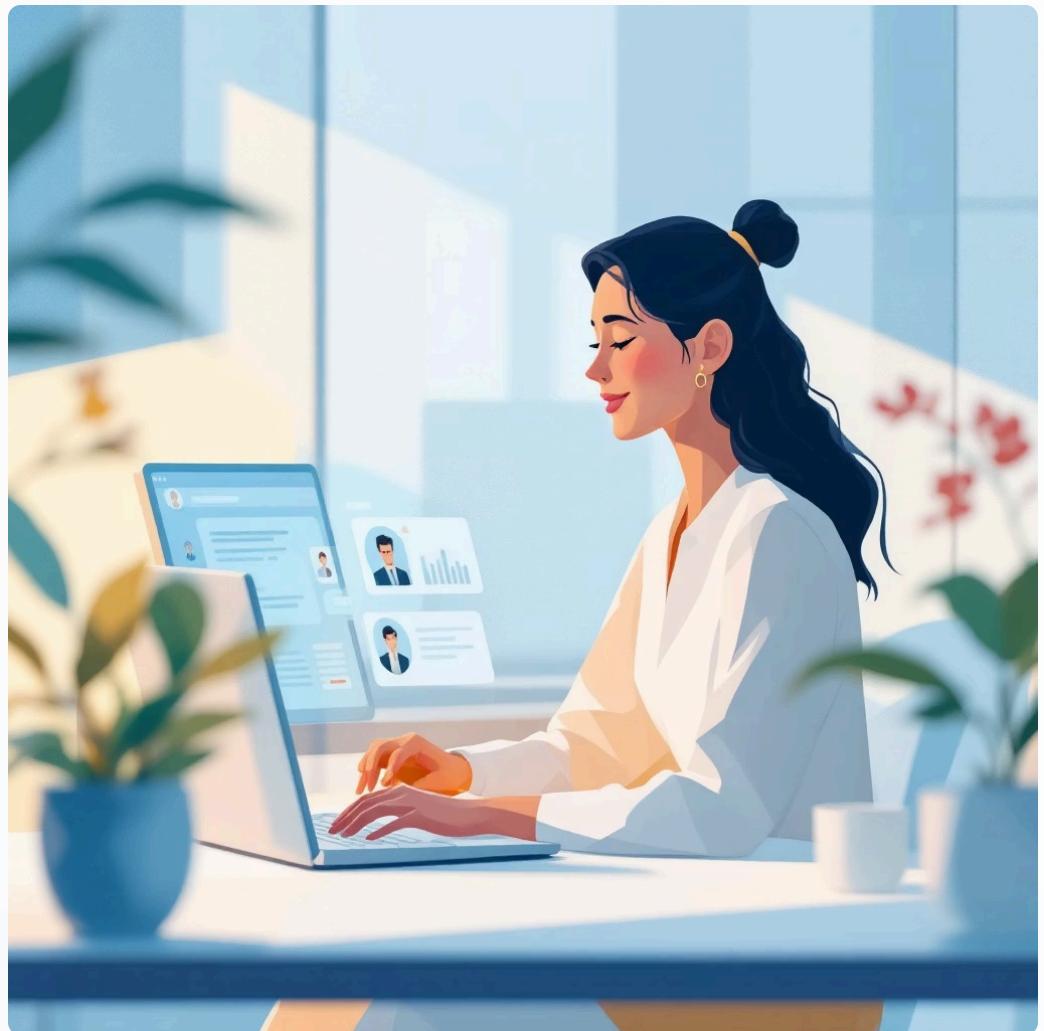

Saved Jobs & Alerts

Keep track of interesting opportunities and receive customized job alerts.

Employer Tools: Finding the Perfect Fit

- **Dashboard Overview:** Monitor jobs posted and new applicants at a glance.
- **Post & Manage Jobs:** Easily create, edit, and delete job listings with detailed parameters.
- **Applicant Management:** Filter, view profiles, shortlist, and reject candidates efficiently.
- **Candidate Search:** Proactively find talent by filtering skills, education, and experience.
- **Hiring Analytics:** Gain insights into job performance, application trends, and hiring rates.
- **Automated Communication:** Utilize automatic responses and email templates for streamlined outreach.
- **Company Profile:** Showcase your brand with a customizable company profile, including logo, description, reviews, and ratings.
- **Interview Scheduling:** Seamlessly schedule interviews with integrated calendar and invitations.

Admin Control: Ensuring Platform Integrity

Platform Statistics

Access key metrics like user count, employer engagement, and job postings.

User Management

Full control to activate or deactivate user and employer accounts as needed.

Job Approval Workflow

Review and approve or reject pending job listings to maintain quality standards.

Detailed Reporting

Generate and download comprehensive reports and charts for in-depth analysis.

Review Moderation

Manage and moderate user reviews to foster a trustworthy environment.

Notifications & Alerts

Create and send announcements or push notifications to all users.

Robust Foundation: Our Tech Stack

Frontend Excellence

React.js for dynamic, responsive user interfaces, paired with **Bootstrap** for rapid, consistent styling.

Backend Power

Node.js and **Express.js** deliver a scalable, high-performance server-side architecture.

Flexible Database

MongoDB provides a robust NoSQL database for efficient data storage and retrieval.

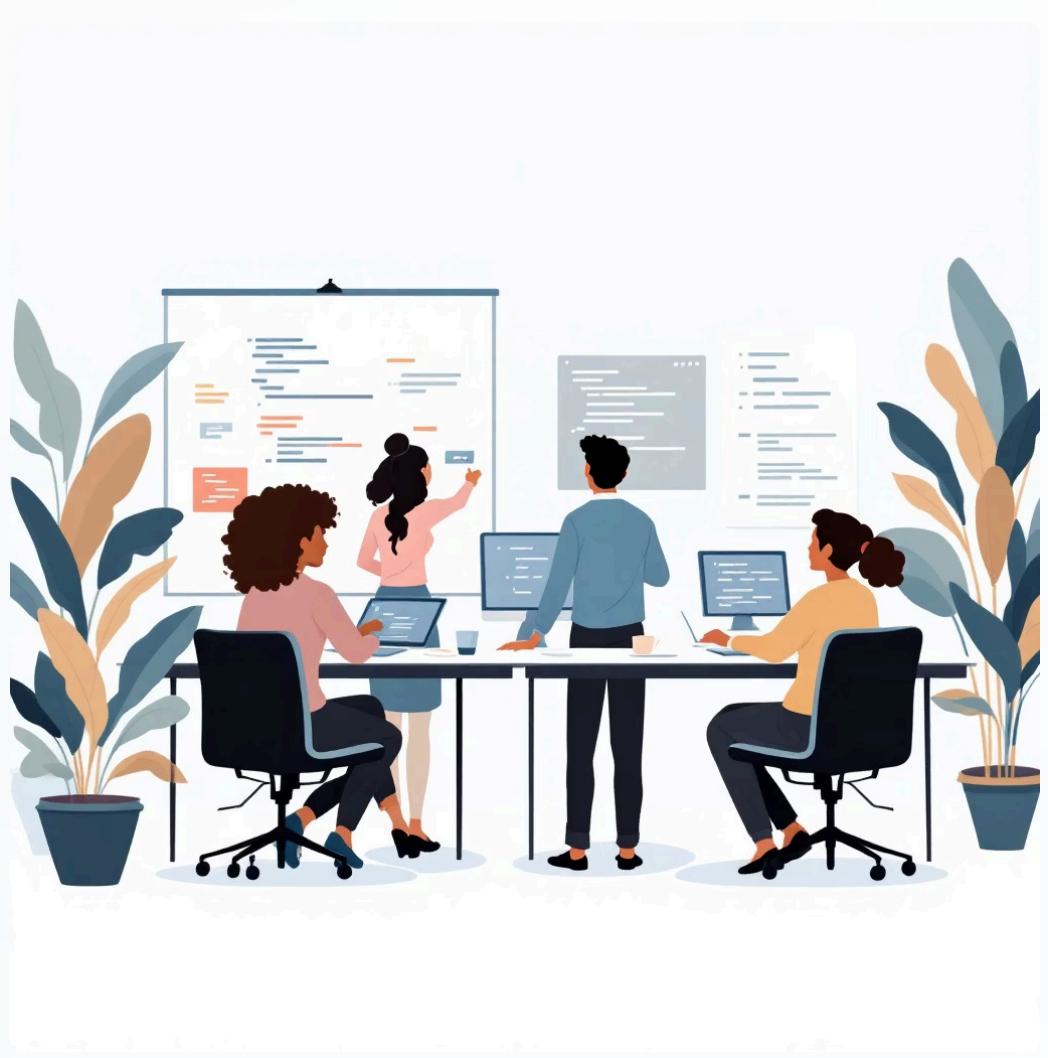

Secure & Connected

JWT Authentication ensures secure access, complemented by a **REST API** for seamless communication.

Our Dedicated Team

- **Rowena Sayed:** Fullstack Developer
- **Frontend Team:** Asmaa Abdelnaser, Rawan Abulmaaref, Mohamed Abdelmoneim, Mina

JobLink: Your Future, Connected
